Since 1945, U-Haul has been the choice for the do-it-yourself mover, with a network of more than 16,300 locations in all 50 States and 10 Canadian provinces. U-Haul customers' patronage has enabled the Company to maintain the largest rental fleet in the “do-it-yourself” moving industry with approximately 101,000 trucks, 82,000 trailers and 33,000 towing devices. U-Haul offers nearly 411,000 rooms and approximately 36.3 million square feet of storage space at nearly 1,115 owned and managed facilities throughout North America. U-Haul is the consumer's number one choice as the largest installer of permanent trailer hitches in the automotive aftermarket industry. The Company supplies alternative-fuel for vehicles and backyard barbecues as one
of the nation’s largest retailers of propane.

U-Haul was founded by a Navy veteran who grew up during the Great Depression. Tires and gas were still rationed or in short supply during the late 1940s when U-Haul began serving U.S. customers. Today, that background is central to the U-Haul Sustainability Program: "Serving the needs of the present without compromising the ability of future generations to meet their own needs." Our commitment to reduce, reuse and recycle includes fuel-efficient moving vans, neighborhood proximity, moving box reuse, moving pads made from discarded material and packing peanuts that are 100 percent biodegradable.
